

# Lecture 16: Evaluate Peer's Prototype (Part II)

Dr. Tsung-Wei Huang

Department of Electrical and Computer Engineering  
University of Utah, Salt Lake City, UT

# Project Prototype Discussion

---

- ❑ **We have opened 10 breakout rooms**
  - ❑ Zoom: <https://utah.zoom.us/j/2468214418>
  - ❑ 1-9 are assigned for each team
  - ❑ Thesis track students are in room 10
- ❑ **Each group work together to do the following:**
  - ❑ Add a section “Prototype” in your project website
    - A set of items or work to demonstrate your proposed approach can eventually lead to the proposed project goal
  - ❑ **Project Website v3 is due this Fri (today!) and MUST contain the prototype section you plan to finish and demonstrate at the end of semester**
  - ❑ Review all other groups’ prototype

# Project Prototype Discussion (cont'd)

---

- ❑ Discuss the following items as if you were an investor:
  - Is the prototype related to the project? (with comments)
  - Is the prototype convincing for you to invest? (with comments)
- ❑ Post your comments at the issue post of each other project at here: <https://github.com/tsung-wei-huang/cs3992/issues>
- ❑ Each group can provide a single collective comment but you must review all other projects

# No Class Next Wed

---

- ☐ It's midterm week although we don't have exams
- ☐ We will resume class on 4/2 (next Friday)
